Common Sense for the Common Good

Pope Leo XIII wrote of the “harvest of misery” that socialism brings. Pius XI said that it’s impossible to be a good Catholic and a good socialist. John Paul II spent his papacy combating socialism’s dehumanizing statism.

Yet somehow this long-discredited economic philosophy is making a comeback, not only on college campuses and political talk shows but among sincere Catholics. Some think it could be the answer to greed and globalism. Others even argue that it’s the best way to obey Christ’s command to help the poor.

Let’s give socialism a fresh chance, they say. A *democratic* socialism this time, friendly to religion and ordered to the common good like the Church says the economy should be.

In *Can a Catholic Be a Socialist?*, Trent Horn and Catherine R. Pakaluk refute this tempting but false notion. Drawing on Scripture, history, Catholic social teaching, and basic economic reality, they show beyond a doubt that Catholicism and socialism are utterly incompatible.

Along the way, they debunk many of the common claims used to keep afloat the fantasy of a Christian-socialist hybrid, including:

- *Since the early Christians kept their property in common, so should we.*

by Trent Horn and Catherine Pakaluk
CB460 Softcover, 208 pgs \$14.95 ~~\$16.95~~

- *Jesus would be in favor an economic system that guarantees everyone food, health care, and education.*
- *The Church—especially Pope Francis—teaches that Catholics must find a “third way” between the extremes of Communism and capitalism.*
- *Socialism would work if it were just done right, like in Sweden.*

Although there is no one “Catholic” economic system, *Can a Catholic Be a Socialist?* also helps you understand commonsense economic principles that are truly in line with the Faith. For we all should work for an economy that gives life: fostering prosperity and the common good while providing opportunities to practice temperance and charity.

Hidden Treasures of Faith in the Parables and Conversations of Jesus

The greatest teacher who ever lived, Jesus knew how to reach his audience where they were. Whether preaching to a group in parable or holding an intimate conversation, he had an unequalled ability to get across the message that his listeners needed to hear.

His teachings in the Gospels speak no less directly to us today. But so rich in meaning are the words of our incarnate God, so layered and profound his messages, that often we fail to do more than scratch their surface. And over time, our habit of superficial encounter with the Word can become self-perpetuating.

In *Secrets from Heaven*, Fr. Sebastian Walshe helps you break free from stale and familiar takes on the gospel, giving you new eyes to see and new ears to hear the inexhaustible depths of Christ's wisdom. The Parable of the Sower, the Good Samaritan, the Prodigal Son, the woman caught in adultery—all these and more come alive in fresh ways, revealing significant details and nuances, scriptural/historical connections, and testaments to Christ's rhetorical and pedagogical genius that you've never noted before.

Nothing Jesus taught was truly "secret"—he revealed the Father for all the world to see. But that doesn't mean his revelation is simplistic. Read *Secrets from Heaven* and go deeper into the saving mysteries of his life and teaching.

How to Answer the Slogans, Clichés, and Fallacies That Atheists Use to Challenge Your Faith

"The God of the Bible is a bloodthirsty dictator." "Extraordinary claims require extraordinary evidence." "Religion is the cause of war, suffering, and intolerance." (Etc.)

If you have spent any time on Twitter, on a college quad, or at the dinner table with a freshman philosophy major, you're probably familiar with the litany of slogans that religious skeptics employ in an attempt to rescue you from the foolish belief that God exists. Even our public schools and mainstream media often can't help but parrot the tropes and memes that seem to leave thinking people with no alternative but to embrace atheism.

How can a Christian respond?

You can ignore them—but then you miss a chance to evangelize and to strengthen your own faith. You can spend years mastering theistic apologetics before you reply—but that takes, well, years. Or you can let John DeRosa (*Classical Theism*) help. In *One Less God Than You*, he breaks down twenty of the most common atheist challenges, exposes their substantive and logical weaknesses, and shows you how to craft effective answers.

Atheism is more aggressive and widespread than ever before, so we believers have a crucial task before us. Read *One Less God Than You* and prepare yourself to respond with the joyful truth that God is real.

How to Answer 50 Biblical Objections to Catholic Beliefs

Every Catholic has heard the challenge: "How can you believe *that*? Don't you know the *Bible* says..."

It's a challenge we have to meet. If we can't reconcile apparent contradictions between Scripture and Catholic teaching, how can our own faith survive? In *Meeting the Protestant Challenge*, Karlo Broussard gives you the knowledge and tools you need to answer fifty of the most common Bible-based objections to Catholicism.

Karlo provides a step-by-step plan for understanding the roots of the objection, breaking down the context and full meaning of the Scripture passages, anticipating follow-up arguments, and offering your own friendly counter-challenge to help Protestants begin to see how the Bible and Catholic teaching actually coexist in harmony.

Don't get caught off guard! When the next biblical challenge comes, be ready to meet it with confidence.

"This is so good because, though I am an amateur apologist, this categorizes it and is a great reference book for a quick look-up. Helps on the anti-Catholic Facebook pages I am part of. Some people HATE the Catholic church with a passion." —E. Graveline

Many Protestants call themselves "Bible Christians"—in contrast with Catholics, who ignore the Bible because they have the Church instead

Too many Catholics have taken this mistaken assumption for granted.

We don't have to anymore, says Jimmy Akin (*The Fathers Know Best, A Daily Defense*). Instead, we should embrace Sacred Scripture—not just as the revealed written word of God but as a thoroughly Catholic work, intimately connected with the Church from the earliest centuries.

If you're a Catholic who sometimes gets intimidated by the Bible (especially scriptural challenges from Protestants), *The Bible Is a Catholic Book* will help you better understand and take pride in this gift that God gave the world through the Church. We are the original "Bible Christians"!

And even non-Catholics will appreciate the clear and charitable way that Jimmy explains how the early Church gave us the Bible—and how the Church to this day reveres and obeys it.

Our Reasons for Faith, Hope, and Love MORE THAN 200,000 SOLD!

Why We're Catholic assembles the clearest, friendliest, most helpful answers to give people, and more.

Wouldn't it be great to have a book to give non-Catholic or ex-Catholic friends and family to explain exactly why we believe what we believe?

Why We're Catholic is the groundbreaking resource by apologist Trent Horn—that one, general book you can hand to anyone as a starting point for helping them find their way into, or back to, the practice of the Catholic faith.

In a series of short, easy-to-read chapters, Trent covers the whole range of common topics, starting with why we believe in anything at all and answering all the common objections to the Catholic faith—both doctrinal and moral.

How to Prepare Kids to Face Today's Tough Moral Issues

A generation ago, Christian parents didn't have to worry about how to explain transgenderism to their nine-year-old or help their teenager deal with mockery at school for believing in traditional marriage.

But today, as our culture's moral center continues to fly apart and with every form of deviance publicly aired and celebrated, we have no choice but to equip our kids to *understand* and to *own* the truth about such issues.

It's not easy, though—these are sensitive questions, and with the wrong approach we can harm our kids' innocence even as we try to preserve it. In *Made This Way: How to Prepare Kids to Face Today's Tough Moral Issues*, Leila Miller and Trent Horn give parents (guardians and teachers, too!) crucial tools and techniques to form children with the understanding they need—appropriate to their age and maturity level—to meet the world's challenges.

Essential reading for parents, grandparents, teachers, and catechists

"I bought this book with high expectations because of the stellar reputation of both authors; the book exceeded those expectations. The main difficulty I see when these 'hot button' topics are discussed is that so many people don't seem to realize that these haven't always *been* hot button issues! These used to be topics for whom the 'right' answer was axiomatic. There is evidence right there of the massive and damaging cultural shift we have witnessed before our eyes. If you think it's tough to navigate this upside down world as an adult, imagine what it's like for a kid who is at school being indoctrinated by a secular culture whose values are 100% aligned against both the gospel and natural law. This book arms you to fight the battle with your wits about you. It's invaluable." —N. Motsch-DeMille

Following the Evidence

In *Following the Evidence*, Trent recounts how God's grace put in his path Christians who helped him break through his stubborn bias against religion, leading to his profession of faith in Jesus Christ. And then, how like a detective he meticulously examined the reasons for and against Catholicism—tracing them step by step until he saw no alternative to full communion with Christ's Church.
